STD 8 CANTEEN DAY

The students of Std 8th enthusiastically put up a canteen for the all the sections on 15th February, 2023. It was largely to raise funds for the new school building that needs to be constructed at the earliest. All the students contributed with generosity and actively participated with great enthusiasm. They set up their stalls of delectable food items which included veg and non veg such as cutlets, kababs, chicken, pasta, appam, panipuri shevpuri, the desserts that included waffles, brownies, cupcakes and donuts was the icing on the cake.

The students of std 8th were a good host to all the other classes. All the students were encouraged to get empty tiffin boxes from home to help reduce the use of paper plates that generates more garbage. They also laid stress on cleanliness and ensured that the entire place was properly cleaned once the canteen was over. It was a collective team work by the students of std 8th along with their class teachers.

The management and staff members appreciated the students and teachers in charge for their effort and indeed it was a fun filled day for all of them.
