

Educate and Empower The Girl Child !

Indira Gandhi rightly said, **“To be liberated, a woman must feel free to be herself, not in rivalry to man but in the context of her own capacity and her personality.”**

Empowerment is necessary to cultivate confidence and courage in individuals so that they are in control of their lives and can contribute constructively to the progress of the society. Girls, especially would be empowered only when they are able to access the opportunities available to them without limitations and restrictions in education, profession and the way they lead their lives. The freedom to take decisions on her own comes naturally to any girl child when experiences a profound sense of achievement and empowerment in her daily life.

The videos presented by some of the girls of Apostolic Carmel High School articulate their views on the true meaning of women empowerment. They have highlighted the various factors that would enable the girl child to scale great heights of success. Our dear Principal Sr. Marisa shares her thoughts on the importance of education in women empowerment. In her virtual message to the staff, parents, Alumni and students, she reiterates that empowerment of the girl child through education is the need of the hour for the progress of mankind and that Apostolic Carmel High School and Junior college will always provide a powerful platform for the Carmelites to make their mark in the world.
