

# Parents day Activity

Parent's day is celebrated on 26th July every year to honour our Parents for the love and care they gave us.

As we celebrate this Parent's day, a card making activity was conducted during the craft period for Std 5th & 7th to make the students realise how important our parents are & what role they play in our life. The Students were engrossed in making the card and were encouraged to put down their feelings by writing few lines.
